

## SEASTAR JACKPLATES

### APPLICATIONS

The SeaStar Jackplate is rated for 300 horsepower engines that weigh up to 625 pounds, and it is designed to maximize engine tilt when used with SeaStar steering cylinders.

### FEATURES

- Sleek, bold styling – redefining the look for Jackplates.
- Presenting a full range of plates in 4, 6, 8, 10 & 12 inch setbacks.
- Aesthetically matched to SeaStar steering cylinders.
- New high speed hydraulic actuator. Bottom to top in under 8.5 seconds.

### NOTES:

\* Accessory adapter port and starboard (DK4500P and DK4500S) are required for installation of anchoring systems on JP4060.

\*\* Cannot mount Power Pole® or Talon® anchoring systems.

\*\*\* Included with Jackplate harness.

The SeaStar Jackplate is one of the sleekest and most durable engine Jackplates available. This essential performance accessory allows for higher speed, gains in fuel economy and the ability to run in shallow water. The all new SeaStar Jackplate features sleek, bold styling that is redefining the look for Jackplates.

Available in 4, 6, 8, 10 and 12 inch setbacks, it also has a new, high-speed, hydraulic actuator that lifts engines in 8.5 seconds. The SeaStar Jackplate is rated for 300 horsepower engines that weigh up to 625 pounds, and it is designed to maximize engine tilt when used with SeaStar steering cylinders.
